

Cycle 2

Autumn	New Year, New me!  As the children come back to school, they learn about how they can keep their body healthy and what has changed since they were born.	Up, up and Away  The children will learn about all things that fly - aeroplanes, balloons, rockets! Who were the people who made this happen?	Autumn  Children will learn about the changes that take place in autumn and what happens to the world around us.	Christmas  How was Christmas celebrated in the past? What type of tree is a Christmas tree and why do we use it?
Spring	Winter  To learn about how the weather gets colder and the days get shorter. How do we keep warm in winter?	Where in the world?  The children will learn about Scunthorpe and London and their features. They will learn about our local area and compare to the city of London.	Spring  The children will learn about the order of the seasons and that in spring it gets warmer and things begin to grow.	Easter  The children will learn about the Easter story, it's significance for Christians and why we have chicks and bunnies at Springtime.
Summer	Dinosaurs  When were dinosaurs alive? How did they disappear? What did dinosaurs eat?	If you go down to the woods today...  The children will learn about what lives and grows in the woods. They may even visit one! They will learn about the woods in our local area - including our school grounds.	Summer  What is the temperature like in the summer? How can we keep our bodies safe in the sun?	School Days  Transition time. A topic to prepare them for the school days ahead as they move into the next school year.
